Create a page like the video in attached file. You should implement a canvas and four-color brushes (blue, black, red, yellow) to draw on that. You should also implement a slider, an eraser and a clean button. The slider range is between 2 and 15.

For the brush icons you can use font awesome icons with the class *"fas fa-paint-brush"*, *"fas fa-eraser", "far fa-file"*; and for the buttons and slider layout you can use the spectre css framework. The link tags are as follows:

<link rel="stylesheet" href="https://unpkg.com/spectre.css/dist/spectre.min.css">
